

Dear {{voornaam}},

I am very pleased that you have been regularly reading our Newsletters. With this edition we celebrate Nr. 150 and we have a special gift for you. Please read further.

Since the new year 2026 has begun and we all are looking forward to the new yachting season, it is a massive value for clients to align on the type of yacht that truly interests them, such as specific design preferences, the brand, bucket list, location, size, year built, nr. of guest rooms, and much more.

It is very important to determine the definition of your dream yacht, which is the result of the Definition Phase and the start of our Y E S Methodology. Why?

When we have reached the concept of what kind of dream yacht you wish, we then are able to start the search for that type of yacht. That is not only a wise decision, but also a challenging one. It requires significant time and involves highly specialized work, as it depends on a large number of detailed elements that must be carefully reviewed.

At present SuperYacht Times showed over 1.650 Motor Superyachts for sale, and 252 Sailing Superyachts, in the following lengths.
